

## Goody Bags for Dad

Written by Susan O'Dell

Use a letter or legal sized envelope and cut off one end. On the face side, cut a one inch slit right down the middle. On each of the two creased sides, cut a slit about  $\frac{1}{2}$  inch. Now fold down the flaps you just cut to create the collar tips and the back of the collar. Tuck the edges of the front collar tips that extend beyond the edge under the back collar edge and glue or tape. Cut ties from patterned paper, adding details with a marker. Fill with candy and include a card wishing Dad a Happy Father's Day!
