

Foliage Banners & Vines

Writer: Mark Jones

Foliage Banners:

- 1) Choose three different solid colors of green broadcloth fabric (two yards each). The colors should be light, medium and darker shades of green.
- 2) Open the cloth and fold it in half. Cut from one corner diagonally to the other corner in a wavy line not straight. This will provide three sections of foliage; one larger piece to hang in the middle and two corner pieces to hang against the wall.
- 3) Trim the sections more if they need to be modified to fit your space.
- 4) Attach leaf shapes from colored paper to the fabric with a stapler. Fewer leaves suggest this is foliage without filling the entire surface of the fabric.

Vines:

- 1) Use masking paper used for paint projects since it is cheaper and thinner making it easier to twist into vines.
- 2) As the paper unrolls, simply twist with your hands to create the vines.
- 3) Add silk vines, leaves and flowers to hang down.

Tree House Kit

Get a ready made tree house and tree bark posters for a quick decoration. Tree sets are also available for creating indoor nature scenes.
